Memorandum

Date: February 6, 2012

Subject: Request for Disclosure of Confidential Information

From: Michael Boydston
Associate Regional Counsel *Mi*

To: Andrea Madigan
Legal Enforcement Program

This memorandum is in response to your request for determination by our office of the request by the South Dakota Department of Environment and Natural Resources to be provided with potential confidential business information (CBI) submitted to EPA. The relevant provision in our regulations is 40 C.F.R. § 2.310(h)(3), which itself adopts the language of 40 C.F.R. § 2.301(h)(3), which in turn reads:

(3) A State or local governmental agency which has duties or responsibilities under the Act, or under regulations which implement the Act, may be considered an authorized representative of the United States for purposes of this paragraph (h). Information to which this section applies may be furnished to such an agency at the agency's written request, but only if—

(i) The agency has first furnished to the EPA office having custody of the information a written opinion from the agency's chief legal officer or counsel stating that under applicable State or local law the agency has the authority to compel a business which possesses such information to disclose it to the agency, or

(ii) Each affected business is informed of those disclosures under this paragraph (h)(3) which pertain to it, and the agency has shown to the satisfaction of an EPA legal office that the agency's use and disclosure of such information will be governed by State or local law and procedures which will provide adequate protection to the interests of affected businesses.

As you have described, the state has specific obligations and responsibilities under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as reflected in the Superfund State Contract that it has entered into with EPA and in statutory requirements such as the CERCLA § 104(c)(3)(C) cost

share requirement. We may therefore consider them an authorized representative under paragraph (h) above.

Next, the state must satisfy the provisions of either subparagraph (h)(3)(i) or (h)(3)(ii). Here, the state has requested the information under subsection (h)(ii). Under this provision, each affected business must be informed of the CBI disclosure to the State. I understand that you are preparing a Federal Register notice that will inform affected businesses of this disclosure, and further that the two affected businesses known at present will receive actual notice of the disclosure.

The other requirement of subparagraph (h)(3)(2) is that the State must demonstrate that its use and disclosure of the potential CBI will be governed by laws and procedures that will provide adequate protection of the interests of the affected business. Here, the State's submittal that you forwarded to me provides details about the relevant State statutes that contain specific procedures for protecting CBI. Among these statutes are S.D. Codified Laws 1-27-1.5 (restricting public inspection and copying of certain "proprietary or commercial information"), 1-27-1.6 (providing for limited disclosure of exempting certain financial, commercial, and proprietary information from disclosure), 1-27-30 (providing for confidentiality of proprietary or trade information of private entities), and 1-27-32 (defining unauthorized disclosure as a Class I misdemeanor). The state also provided information concerning its procedures for handling CBI, including maintaining it in a secure location and requiring that to view CBI staff must receive specific authorization by the Secretary of the Department of Environment and Natural Resources.

For these reasons, I conclude that, once the notice mentioned above is provided, disclosure of the potential CBI to the state will be consistent with regulatory requirements. Please let me know if you need any further assistance.

MEMORANDUM

DATE: January 20, 2012

SUBJECT: Request for Disclosure of Confidential Business Information

FROM: Andrea Madigan
Legal Enforcement Program *Am*

TO: Michael Boydston, Assistant Regional Counsel

The South Dakota Department of Environment and Natural Resources (DENR) has requested, by letter dated December 27, 2011 (see attached), that information submitted to the United States Environmental Protection Agency (EPA) by response action contractors for the Gilt Edge Mine Superfund site (Gilt Edge Site), including potential confidential business information (CBI), be provided to DENR pursuant to the provisions of 40 CFR §2.310(h)(3)(ii). The Legal Enforcement Program requests a formal determination by the Region 8 Office of Regional Counsel on DENR's request.

The EPA and the DENR entered into a Superfund State Contract (SSC) on July 12, 2001, which has been amended numerous times. The SSC memorializes the agreement between the EPA and DENR regarding implementation of remedial action at the Gilt Edge Site and the State's assurance to pay its ten percent cost share. Under the SSC, EPA is required to provide DENR with documentation regarding costs associated with remedial action including costs incurred or to be incurred by EPA contractors. This documentation includes information that contractors consider CBI under the EPA regulations. If the EPA cannot provide confidential information to DENR, the State is unable to substantiate its cost share payment obligations.

Section 104(e)(7) of CERCLA, 42 USC §9604(e)(7), allows EPA to disclose any information, including CBI, to any authorized representative of the United States. The regulations then provide that the authority set out in section 104(e)(7) of CERCLA may be exercised only in accordance with subparagraphs (h)(2), (h)(3)(i) or (h)(3)(ii) of 40 CFR §2.310. In this case, DENR has requested access to CBI records pursuant to paragraph (h)(3)(ii).

40 CFR §2.310(h)(3)(ii) provides as follows:

(3) A State or local governmental agency which has duties or responsibilities under the Act [i.e., CERCLA], or under regulations which implement the Act, may be considered an authorized representative of the United States for purposes of this paragraph (h). Information to which this section applies may be furnished to such an agency at the agency's written request, but only if—

(ii) Each affected business is informed of those disclosures under this paragraph (h)(3) which pertain to it, and the agency has shown to the satisfaction of an EPA legal office that the agency's use and disclosure of such information will be governed by State or local law and procedures which will provide adequate protection to the interests of affected businesses.

By agreeing to the SSC, DENR has duties or responsibilities under CERCLA and therefore may be considered an authorized representative of the United States for purposes of 40 CFR §2.310(h). Further, the South Dakota Legislature has established specific legal protection for confidential records that DENR receives from the EPA.

South Dakota Codified Laws (SDCL) Chapter 1-27 governs the disclosure of records and documents obtained by state agencies during the course of their duties. SDCL 1-27-1 generally provides citizens of the state and interested parties access to public records. However, certain financial records are specifically exempt from the definition of public records and are not subject to disclosure. SDCL 1-27-1.5 states that certain records are not open to inspection and copying including "proprietary or commercial information which if released would . . . give advantage to business competitors" and "internal agency record or information received by agencies that are not required to be filed with such agencies . . ."

Further, SDCL 1-27-1.6 specifically exempts certain financial, commercial and proprietary information from disclosure including "proprietary data, trade secrets or other information that relates to (a) a vendors unique methods of conducting business; (b) data unique to the product or services of the vendor; or (c) determining prices or rates to be charged for services submitted by any vendor to any public body." In addition, proprietary or trade secret information obtained by a state agency is confidential and can only be disclosed under limited circumstances to state or federal agencies or law enforcement, to comply with federal law or pursuant to a court order. SDCL 1-27-31. Unauthorized disclosure is a Class 1 misdemeanor. SDCL 1-27-32.

DENR maintains confidential business information in a locked file cabinet or other secured location. Confidential information received in electronic form is retained in a password protected storage device. Such information is only reviewed by staff authorized to view the information by the Secretary of the DENR.

Based on the information provided in the December 27, 2011 letter from the State of South Dakota Office of Attorney General, review of the relevant federal and South Dakota statutory provisions, and the SSA, it is my opinion that DENRs use and disclosure of the information in

those records will be governed by State law and procedures which will provide adequate protection to the interests of affected business.

Thank you for your assistance in this matter. Please let me know, if you have any questions or comments.

Re: Contractors' Confidential Business Information Submitted to EPA during Remedial and Other Actions at the Gilt Edge Superfund Site

Dear Ms. Madigan:

As you requested, this letter concerns the applicability of South Dakota's laws to the disclosure of confidential business information submitted by contractors to the Environmental Protection Agency ("EPA") regarding remedial and other actions at the Gilt Edge Superfund Site.

In order to have access to confidential business information filed by contractors working under contract with EPA for the performance of remedial and other actions at the Gilt Edge Superfund Site, the South Dakota Department of Environment and Natural Resources ("DENR") is required to provide a written request for the confidential information, and an explanation of state laws and their applicability to DENR's use and disclosure of such information. 40 CFR 2.310(h)(3)(iii) requires that these procedures and laws provide adequate protection to the interests of the affected businesses to this confidential business information.

DENR's Request

The Superfund State Contract (SSC) between EPA and DENR for the implementation of remedial action at the Gilt Edge Superfund Site, requires that EPA submit documents necessary to implement the Remedial Action, SSC Section F.2, and a monthly progress report that includes, inter alia, a summary of all contractor requests for payment including copies of invoices received by EPA from the contractors. SSC Section F.9. EPA has informed DENR that the contractor's work plans and invoices, by disclosing hourly rates and other information that could affect the contractor's competitive position, contains confidential business information that must be protected from disclosure.

South Dakota Pubic Records Law and Protections for Confidential Business Information

South Dakota Codified Laws ("SDCL") Chapter 1-27 governs the disclosure of records and documents obtained by state agencies during the course of their duties. SDCL 1-27-1 states:

Except as otherwise expressly provided by statute, all citizens of this state, and all other persons interested in the examination of the public records, as defined in §1-27-1.1, are hereby fully empowered and authorized to examine such public record, and make memoranda and abstracts therefrom during the hours the respective offices are open for the ordinary transaction of business and, unless federal copyright law otherwise provides, obtain copies of public records in accordance with this chapter. Each government entity or elected or appointed government official shall, during normal business hours, make available to the public for inspection and copying in the manner set forth in this chapter all public records held by that entity or official.

"Public records" are defined at SDCL 1-27-1.1 as "[u]nless any other statute, ordinance, or rule expressly provides that particular information or records may not be made public, public records include all records and documents regardless of physical form, of or belonging to this state, ...or any agency, branch, department, board..."

SDCL 1-27-1.3 specifically addresses financial records:

The provisions of §§1-27-1 to 1-27-1.15, inclusive, and 1-27-4 shall be liberally construed whenever any state...fiscal records, audit, warrant, voucher, invoice, purchase order, requisition, payroll, check, receipt, or other record of receipt, cash or expenditure involving public funds is involved...

However, certain financial records are thereafter specifically exempt from being "public record" and subject to disclosure.

SDCL 1-27-1.5 states that the following records are not subject to SDCL 1-27-1, 1.1, and 1.3:

(3) ..., and other proprietary or commercial information which if released would ..., *give advantage to business competitors*, or ...

(24) Internal agency record or information received by agencies that are not required to be filed with such agencies, ...

Further, SDCL 1-27-1.6 states:

The following financial, commercial, and proprietary information is specifically exempt from disclosure pursuant to §§1-27-1 to 1-27-1.15, inclusive:

...

(6) Proprietary data, trade secrets, or other information that relates to:

(a) A vendor's unique methods of conducting business;

(b) Data unique to the product or services of the vendor; or

(c) Determining prices or rates to be charged for services, submitted by any vendor to any public body;

...

In addition, SDCL 1-27-30 states: "All proprietary or trade secret information obtained by a state agency from or concerning a private entity is confidential, except as provided by § 1-27-31." "Proprietary" information is defined at SDCL 1-27-28(4) as "information on pricing, costs, revenue, taxes, market share, customers, and personnel held by private entities and used for that private entity's business purposes." SDCL 1-27-31 allows a state agency to disclose such information only under limited circumstances: to the private entity itself, state or federal agencies or law enforcement, to comply with federal law, or pursuant to court order. Unauthorized disclosure is a Class 1 misdemeanor. SDCL 1-27-32.

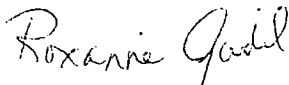

The information DENR is requesting from EPA as part of EPA's monthly progress reports is confidential business information considered proprietary under both SDCL 1-27-1.6(6) and 1-27-30. DENR is prohibited from treating that information as public record, and must maintain it as confidential (with the exception of disclosing it to other state and federal agencies or pursuant to court order under SDCL 1-27-31).

DENR's Standard Operating Procedures re Confidential Records

DENR maintains confidential paper records in a secure location such as a locked file cabinet, drawer, or other secured storage container. Confidential information is only reviewed by staff authorized to view that information by the Secretary of DENR.

Confidential information received in electronic form is retained in a secure computer location, such as a password protected storage device. Electronic confidential information is only reviewed by staff authorized to view that information by the Secretary of DENR.

Very truly yours,

Roxanne Giedd

Each government entity or elected or appointed government official shall, during normal business hours, make available to the public for inspection and copying in the manner set forth in this chapter all public records held by that entity or official.

1-27-1.1. Public records defined. Unless any other statute, ordinance, or rule expressly provides that particular information or records may not be made public, public records include all records and documents, regardless of physical form, of or belonging to this state, any county, municipality, political subdivision, or tax-supported district in this state, or any agency, branch, department, board, bureau, commission, council, subunit, or committee of any of the foregoing. Data which is a public record in its original form remains a public record when maintained in any other form. For the purposes of §§ 1-27-1 to 1-27-1.15, inclusive, a tax-supported district includes any business improvement district created pursuant to chapter 9-55.

1-27-1.2. Fees for specialized service. If a custodian of a public record of a county, municipality, political subdivision, or tax-supported district provides to a member of the public, upon request, a copy of the public record by transmitting it from a modem to an outside modem, a reasonable fee may be charged for such specialized service. Such fee may include a reasonable amount representing a portion of the amortization of the cost of computer equipment, including software, necessarily added in order to provide such specialized service. This section does not require a governmental entity to acquire computer capability to generate public records in a new or different form if that new form would require additional computer equipment or software not already possessed by the governmental entity.

1-27-1.3. Liberal construction of public access to public records law--Certain criminal investigation and contract negotiation records exempt. The provisions of §§ 1-27-1 to 1-27-1.15, inclusive, and 1-27-4 shall be liberally construed whenever any state, county, or political subdivision fiscal records, audit, warrant, voucher, invoice, purchase order, requisition, payroll, check, receipt, or other record of receipt, cash, or expenditure involving public funds is involved in order that the citizens of this state shall have the full right to know of and have full access to information on the public finances of the government and the public bodies and entities created to serve them. Use of funds as needed for criminal investigatory/confidential informant purposes is not subject to this section, but any budgetary information summarizing total sums used for such purposes is public. Records which, if disclosed, would impair present or pending contract awards or collective bargaining negotiations are exempt from disclosure.

1-27-1.4. Denial letters to be kept on file. Each public body shall maintain a file of all letters of denial of requests for records. This file shall be made available to any person on request.

1-27-1.5. Certain records not open to inspection and copying. The following records are not subject

to §§ 1-27-1, 1-27-1.1, and 1-27-1.3:

(1) Personal information in records regarding any student, prospective student, or former student of any educational institution if such records are maintained by and in the possession of a public entity, other than routine directory information specified and made public consistent with 20 U. S.C. 1232g, as such section existed on January 1, 2009;

(2) Medical records, including all records of dmg or alcohol testing, treatment, or counseling, other than records of births and deaths. This law in no way abrogates or changes existing state and federal law pertaining to birth and death records;

(3) Trade secrets, the specific details of bona fide research, applied research, or scholarly or creative artistic projects being conducted at a school, postsecondary institution or laboratory funded in whole or in part by the state, and other proprietary or commercial information which if released would infringe intellectual property rights, give advantage to business competitors, or serve no material public purpose;

(4) Records which consist of attorney work product or which are subject to any privilege recognized in chapter 19-13;

(5) Records developed or received by law enforcement agencies and other public bodies charged with duties of investigation or examination of persons, institutions, or businesses, if the records constitute a part of the examination, investigation, intelligence information, citizen complaints or inquiries, informant identification, or strategic or tactical information used in law enforcement training. However, this subdivision does not apply to records so developed or received relating to the presence of and amount or concentration of alcohol or drugs in any body fluid of any person, and this subdivision does not apply to a 911 recording or a transcript of a 911 recording, if the agency or a court determines that the public interest in disclosure outweighs the interest in nondisclosure. This law in no way abrogates or changes §§ 23-5-7 and 23-5-11 or testimonial privileges applying to the use of information from confidential informants;

(6) Appraisals or appraisal information and negotiation records concerning the purchase or sale, by a public body, of any interest in real or personal property;

(7) Personnel information other than salaries and routine directory information;

(8) Information solely pertaining to protection of the security of public or private property and persons on or within public or private property, such as specific, unique vulnerability assessments or specific, unique response plans, either of which is intended to prevent or mitigate criminal acts, emergency management or response, or public safety, the public disclosure of which would create a substantial likelihood of endangering public safety or property; computer or communications network schema, passwords, and user identification names; guard schedules; lock combinations; or any blueprints, building plans, or infrastructure records regarding any building or facility that expose or create vulnerability through disclosure of the location, configuration, or security of critical systems;

(9) The security standards, procedures, policies, plans, specifications, diagrams, access lists, and other security-related records of the Gaming Commission and those persons or entities with which the commission has entered into contractual relationships. Nothing in this subdivision allows the commission to withhold from the public any information relating to amounts paid persons or entities with which the commission has entered into contractual relationships, amounts of prizes paid, the name of the prize winner, and the municipality, or county where the prize winner resides;

(10) Personally identified private citizen account payment information, credit information on others supplied in confidence, and customer lists;

(11) Records or portions of records kept by a publicly funded library which, when examined with or without other records, reveal the identity of any library patron using the library's materials or services;

(12) Correspondence, memoranda, calendars or logs of appointments, working papers, and records of telephone calls of public officials or employees;

(13) Records or portions of records kept by public bodies which would reveal the location, character, or ownership of any known archaeological, historical, or paleontological site in South Dakota

if necessary to protect the site from a reasonably held fear of theft, vandalism, or trespass. This subdivision does not apply to the release of information for the purpose of scholarly research, examination by other public bodies for the protection of the resource or by recognized tribes, or the federal Native American Graves Protection and Repatriation Act;

(14) Records or portions of records kept by public bodies which maintain collections of archeological, historical, or paleontological significance which nongovernmental donors have requested to remain closed or which reveal the names and addresses of donors of such articles of archaeological, historical, or paleontological significance unless the donor approves disclosure, except as the records or portions thereof may be needed to carry out the purposes of the federal Native American Graves Protection and Repatriation Act and the Archeological Resources Protection Act;

(15) Employment applications and related materials, except for applications and related materials submitted by individuals hired into executive or policymaking positions of any public body;

(16) Social security numbers; credit card, charge card, or debit card numbers and expiration dates; passport numbers, driver license numbers; or other personally identifying numbers or codes; and financial account numbers supplied to state and local governments by citizens or held by state and local governments regarding employees or contractors;

(17) Any emergency or disaster response plans or protocols, safety or security audits or reviews, or lists of emergency or disaster response personnel or material; any location or listing of weapons or ammunition; nuclear, chemical, or biological agents; or other military or law enforcement equipment or personnel;

(18) Any test questions, scoring keys, results, or other examination data for any examination to obtain licensure, employment, promotion or reclassification, or academic credit;

(19) Personal correspondence, memoranda, notes, calendars or appointment logs, or other personal records or documents of any public official or employee;

(20) Any document declared closed or confidential by court order, contract, or stipulation of the parties to any civil or criminal action or proceeding;

(21) Any list of names or other personally identifying data of occupants of camping or lodging facilities from the Department of Game, Fish and Parks;

(22) Records which, if disclosed, would constitute an unreasonable release of personal information;

(23) Records which, if released, could endanger the life or safety of any person;

(24) Internal agency record or information received by agencies that are not required to be filed with such agencies, if the records do not constitute final statistical or factual tabulations, final instructions to staff that affect the public, or final agency policy or determinations, or any completed state or federal audit and if the information is not otherwise public under other state law, including chapter 15-15A and § 1-26-21;

(25) Records of individual children regarding commitment to the Department of Corrections pursuant to chapters 26-8B and 26-8C;

(26) Records regarding inmate disciplinary matters pursuant to § 1-15-20; and

(27) Any other record made closed or confidential by state or federal statute or rule or as necessary to participate in federal programs and benefits.

1-27-1.6. Certain financial, commercial, and proprietary information exempt from disclosure. The following financial, commercial, and proprietary information is specifically exempt from disclosure pursuant to §§ 1-27-1 to 1-27-1.15, inclusive:

(1) Valuable formulae, designs, drawings, computer source code or object code, and research data invented, discovered, authored, developed, or obtained by any agency if disclosure would produce

private gain or public loss;

(2) Financial information supplied by or on behalf of a person, firm, or corporation for the purpose of qualifying to submit a bid or proposal;
